

QUALITY AIRCRAFT AND ENGINE SUPPORT

WWW.JETPOWER.AERO
(708) 588-6302
(425) 740-2990

JETPOWER was established in 2004 as an expert source in the international aftermarket for commercial and corporate aircraft engines and engine material. JETPOWER recently completed the acquisition of SOUNDAIR Aftermarket Group, a 25 year old established company, giving JETPOWER an immediate footprint in the international arena for commercial airframe, avionics, landing gear and aircraft interiors. JETPOWER now provides additional value to our customers by providing full service solutions for all needs of commercial and corporate air carriers, leasing companies and MROs. JETPOWER was recently approved by the Department of Defense to supply material to the military.

The JETPOWER Team has over 100 years experience in aircraft material management. We currently employ 20 people with sales and distribution facilities in Seattle next to the Boeing Assembly Plant, multiple facilities in the Chicago land area, a sales office in Las Vegas and multiple international sales representative offices throughout the world.

We have a diverse engine and airframe product base and global experience which enables us to provide our customer base with a quick and thorough response, using creative personalized solutions throughout the supply chain. JETPOWER's network of worldwide contacts enables us to locate quality engine and aircraft material to satisfy our customers' requirements. With less overhead than the larger suppliers, JETPOWER is able to pass the cost savings directly to our customers.

We offer airlines, MROs, and leasing companies throughout the world an alternative means of sourcing inventory, which reduces their overall investment in inventory and freeing up cash for more productive uses.

Our **Engine Division** specializes in consignment and redistribution of CFM International, General Electric, International Aero Engines, Pratt & Whitney and Rolls Royce engines and engine material. They also assist in material management, repair management and engine management services.

Engine Division works with the following Products:

Manufacturer	Model
CFM International	CFM56
GE	CF6
IAE	V2500
Pratt & Whitney	JT8D, JT9D, PW2000, PW4000
Rolls Royce	Tay, Spey, RB211

Our **Airframe Division** specializes in consignment and redistribution of Airbus, Boeing, McDonnell Douglas and Bombardier aircraft rotables, avionics and instruments, hydraulics, pneumatics, landing gear components, flight control surfaces, and interiors. They also assist in material management, repair management and aircraft management services.

Airframe Division works with the following Products:

Manufacturer	Model
Airbus	A340, A330, A320, A310, A300
Boeing	777, 767, 757, 747, 737, 727
Bombardier	CRJ, Dash 8
Fokker	F50, F100
McDonnell Douglas	MD-80, MD90

JETPOWER is an accredited supplier complying with both the ISO 9001: 2008 quality standard and the provisions of FAA Advisory Circular 00-56A. Our company employs state-of-the-art aviation management software.

Each one of JETPOWER's customers has unique requirements. Our goal is to design and implement a personalized approach to meet and or exceed our customer's requirements. The JETPOWER team is committed to maintaining a personalized approach with all our customers. Our flexibility, innovation, and customized solutions that WORK is what differentiates us from others within the aerospace industry.

Visit our website at www.jetpower.aero for further information on how our solutions will reduce cost and add value to your organization. We look forward to adding you to our growing list of satisfied customers.
